

**How  
TaalentSphere  
helped a  
company cut  
their hiring time**

# Challenges

- Proven staffing partner to augment their current recruitment team
- Internal recruitment team lagging due to continuous inflow of requirements
- Delays in filling business critical positions
- Team demotivated due to increase in mundane activities

# Solution

Helped fill several roles pertaining to light industrial, engineering, information technology, plant managers, production managers, scientists and project managers

- Leveraged our existing pool of pre-screened and qualified candidates to quickly fill in the positions.
- Supported the client's recruitment team with social media outreach to attract candidates for business critical roles.
- Started our relationship with the client for one of their business units and over time, have become one of the most preferred talent acquisition partners for them.

A close-up photograph of a hand placing a light-colored wooden block onto a stack of similar blocks. The stack is arranged in a stepped pattern on a wooden surface. The background is softly blurred, showing a window with greenery outside. The word 'Benefits' is overlaid in a bold, dark blue font.

# Benefits

- Hiring time reduced by 0.5x
- Right candidates for the right roles
- Productivity gains for the client's internal team
- Tremendous cost savings in terms of hiring and on-boarding
